

## Beacon™ Safe Egress You Can See, Hear & Trust

### AN INDUSTRY-FIRST LIFE-SAFETY SOLUTION FROM SARGENT.

SARGENT introduces Beacon™, a next generation exit device that creates a clearer pathway to safety during an emergency. It's the newest addition to the ASSA ABLOY LiteGuide™ family of products.

#### MORE THAN AN EXIT DEVICE

The combination of audible and visible alerts built into the exit device makes Beacon unique – and effective. Connected to the building's alarm system, when activated Beacon emits a pulse of light and white noise followed by an audible message declaring "exit located here." A laser light beamed from the exit device forms an arrow shape pointing directly to the illuminated touch bar – allowing occupants to locate the exit and get out quickly.

#### A LIFE-SAFETY INNOVATION

In your ongoing efforts to ensure safety in your buildings, count on Beacon as an important tool during emergency evacuations. Beacon makes the opening highly noticeable for all occupants, including those who are hearing- or sight-impaired.

Trust SARGENT to deliver the most innovative life-safety and security products on the market.

# Cuts Through Smoke and Noise

In a crisis situation, efficient evacuation often depends on first responders getting to the source of the problem quickly to aid occupants to the emergency exits.

## Beacon™

### BENEFITS

- Integrates with existing fire-alarm systems
- Easy to install with standard ElectroLynx® connectors
- Fully programmed at factory – no field configuration required
- Virtually maintenance-free
- Retrofits to most 80 Series exit devices

### OPTIONS

- Both electroluminescent and photoluminescent versions available
- MicroShield™ antimicrobial finish

### APPLICATIONS

- Entertainment venues
- Conference centers
- Office buildings
- Sports venues
- Healthcare facilities

#### Beacon™

As part of their promise to provide innovative life-safety solutions to their customers, ASSA ABLOY Group companies offer Beacon, part of the LiteGuide family of products. Beacon combines audible and visible alerts to make exit locations easy to find.

Beacon™ is a trademark of ASSA ABLOY, Inc.

#### ElectroLynx®

As part of their promise to provide innovative, fast and effective, and higher security solutions to their customers, ASSA ABLOY Group companies offer ElectroLynx, a universal quick-connect system that simplifies the electrification of the door opening.

ElectroLynx® is a registered trademark of ASSA ABLOY, Inc.

#### MicroShield™

As part of their promise to provide innovative solutions to their customers, ASSA ABLOY Group companies offer the MicroShield technology, a silver-based antimicrobial coating designed to stem the spread of germs and bacteria.

MicroShield™ is a trademark of the respective ASSA ABLOY Group company.

### SYNCHRONIZED AUDIBLE AND VISIBLE ALERTS

Beacon connects to the building's fire alarm system and when activated, begins a looping sequence of synchronized signals.

First, the exit device emits pulsing light from two high intensity LEDs and white noise simultaneously. The white noise—a blend of various sound frequencies—allows occupants to focus on the next phase of alerts: Beacon's emergency message.

Verbal exit instructions, indicating exit location, are given in one or multiple languages.

In the final phase of the sequence, a highly visible green laser light cone combined with flashing LEDs draws people directly to the exit.

### FEATURES

- Incorporates flashing LEDs for increased visibility
- Emits green laser light cone to draw occupants to the exit
- Broadcasts white noise to cut through background noise and audibly guide occupants toward the door, especially effective in complete darkness
- Transmits audible "exit located here" messages in English, Spanish, French or other language to meet customer's needs
