

No Strings Attached.

Profile Series v.S2
Intelligent WiFi
Access Control Solution

Extend the Reach of Access Control

The Profile Series v.S2 gives you more access control for your budget. An ANSI/BHMA Grade 1 lock, the v.S2 connects to the building's existing WiFi network, and can make decisions at the door if the network fails. Because there are no wires to run, installation and labor is significantly reduced, and commission is expedited. With door status monitoring and alarm notification, the v.S2 is available in exit device, mortise and cylindrical lock configurations.

Features	Benefits
Utilizes 802.11b/g wireless network infrastructure	Cost-effective installations, no proprietary equipment required; ideal for hard-to-wire locations
Integrated ANSI/BHMA Grade 1 hardware, available in: 10 Line Bored Lock; 8200 Series Mortise Lock; 80 Series Exit Device	Flexibility to support a variety of openings; industry leading Grade 1 hardware offers the highest degree of physical security available in access control locks
Intelligence built into lock for local decision making	Lock operates regardless of network status; supports up to 2,400 users per lock and provides a 10,000 event transaction history/audit trail
Supports HID® 125 kHz prox or 13.56 MHz iCLASS® credentials (26 - 39 bit); supports CSN reads for other common 13.56 MHz cards, including MiFare, DesFire, and Felica	Integrates easily with existing credential systems
Full iCLASS® credential authentication	Offers enhanced security through encryption and mutual authentication
Built-in door status monitoring and configurable alarm notifications	Provides real-time alarms for immediate response
Weatherseal gasket and conduit included. Shroud available.	Can be used on a variety of exterior doors
Open architecture design	Facilitates integration with any access control system
Uses six AA batteries	Easy, cost effective deployment and maintenance
Keypad option available	Two-factor authentication offers enhanced security

Technical Specifications

Security

- Advanced data security with standard encryption techniques
- AES 128-bit encryption
- Supports most current WiFi network security standards. For specific security information, please contact your local ASSA ABLOY Door Security Solutions sales representative or call 800-810-Wire.

Software

- Lock Management Tool available for small installations
- To ensure quick and easy integration, our products are tested and certified to work with access control software and systems from many providers. Visit www.intelligentopenings.com for a complete list of partners.
- Software Development Kits (SDK) and support available to integrate into other third party access control systems. Call 800-810-WIRE for assistance.
